

REF: PPR/08 - 1/11

**PUBLIC NOTICE ON CAP PRICES FOR PETROLEUM PRODUCTS EFFECTIVE
3RD AUGUST 2011**

Following the completion of a public inquiry process that was aimed at coming up with a new price computation formula, EWURA hereby publishes bi-weekly cap prices for petroleum products in the Tanzania Mainland local market. These retail and wholesale prices are applicable effective **Wednesday 3rd August 2011**. Kindly take note of the following.

- (a) Retail and wholesale prices for all petroleum products, in the Tanzania Mainland local market have gone down compared with the last prices publication of 1st July 2011. Retail prices for various products have decreased (per litre) as follows: Petrol TZS 202.37 (or 9.17%), Diesel TZS 173.49 (or 8.32%) and Kerosene TZS 181.37 (or 8.70%). The price decreases have been caused by a revision of the Petroleum Prices formula. The decrease would have been higher had it not been for a rise in petroleum prices in the world market prices and depreciation of the Tanzanian Shilling compared to the US dollar (the currency in which purchases of products in the international oil market are made). The wholesale prices for the same period have also decreased as follows: Petrol TZS 201.61 (or 9.43%), Diesel TZS 172.73 (or 8.57%) and Kerosene TZS 180.63 (or 8.95%).
- (b) In line with the prevailing sector legislation, prices of petroleum products are governed by rules of supply and demand. EWURA shall continue to encourage competition in the sector by making available petroleum products pricing information including price cap. This information on prices is intended to enable stakeholders to make informed decisions on petroleum prices at any particular time.
- (c) Oil marketing companies are free to sell their products at a price that give them competitive advantage, provided that such **price does not exceed the price cap for the relevant product. The approved formula was gazetted through Government Notice No. 5 of 9th January 2009 and amendments made in July 2011.**
- (d) All petrol stations should publish petroleum product prices on clearly visible boards. The price boards should be clearly visible and should clearly show prices charged, discounts offered as well as any trade incentives or promotions on offer. Consumers are advised to purchase from those that sell products at the most competitive prices. **It is an offence not to have prices published on boards located in clearly visible places in front of petrol stations and it will attract punitive measures from EWURA.**
- (e) Retailers must issue receipts with respect to all sales that they make and consumers are advised to **demand and keep receipts** that clearly show the name of petrol station, date on which such purchase was made as well as, the type of fuel and price per litre for every purchase they make. This can be used as an exhibit in case of a complaint lodged in the event that the selling price is above the cap price or in case the products sold are off the approved specifications.
